

Conveying Affectiveness in Leading-edge Living Adaptive Systems

**CALLAS**

Developing Affective Interface Technology for New  
Media and Digital Arts and Entertainment

*callas-newmedia.eu*

*CALLAS will develop multimodal affective interfaces which will be central to the new media experience such as: Digital Theatre, Interactive TV, Augmented Reality Art, and Interactive public performances. CALLAS will advance the state of art by extending emotional synthesis and enhancing the user experience.*
